

# O'MALLEY PET

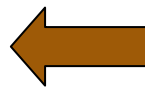

**WHO:** We are O'Malley PET (**P**reventing **E**uthanasia **T**ogether), a non-profit organization and a division of O'Malley Alley Cats. We are an all volunteer staff of community members working under the direction of veterinarian Dr. Wendy Blount.

**WHY:** Our mission is to prevent the euthanasia of adoptable animals in the Nacogdoches region by reducing overpopulation of cats and dogs. Last year, 3,106 cats and dogs were euthanized at the Nacogdoches Animal Shelter. That's over 8 animals a day, seven days a week!! This number can only be lowered by spaying and neutering cats and dogs in the area. Only spaying and neutering has been shown to reduce the number of unwanted animals surrendered to animal shelters.

**WHAT:** We are offering a low cost spay / neuter option for those who May not be able to afford the surgery from the many qualified for-profit veterinary clinics in Nacogdoches. We believe that a lack of disposable income should not prevent good pet care.

**YOU CAN HELP:** Only by working together will we be able to stop the senseless euthanasia of adoptable cats and dogs. You can help by spaying or neutering your pets and spreading the word to others in our community. Look over this paperwork to see if you qualify for our reduced cost spay/neuter program.

Call 936-556-2754 or bring your completed application to the O'Malley House at 611 N. Fredonia Street (corner of Hughes and Fredonia). Just drop it thru the mail slot on the front door. For more information and to download forms, visit <http://www.omalleypet.org/>.

**SAVED from EUTHANASIA**  
**ALTERED AND LOVING IT**  
**NOT ADDING TO THE PROBLEM**
